NEW!

MATTSTIX
PEEL-AND-STICK

MATT Stix brings the look and feel of handcrafted, architectural concrete, with the ease and convenience of lightweight, peel-and-stick boards.

**GET THE HIGH-END
CONCRETE LOOK YOU
WANT WITH DIY EASE.**

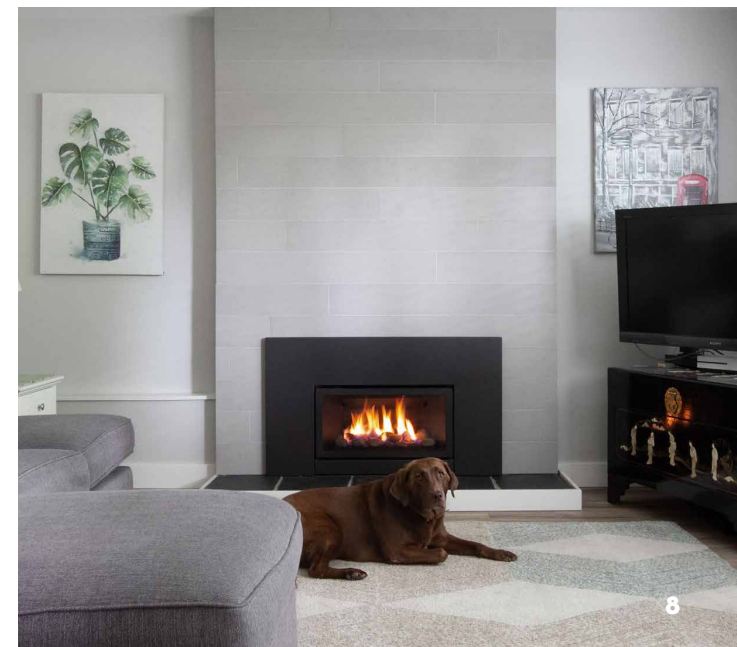

MATT Stix are for DIYers, designers and anyone looking for a quick and easy way to achieve a high-end concrete look.

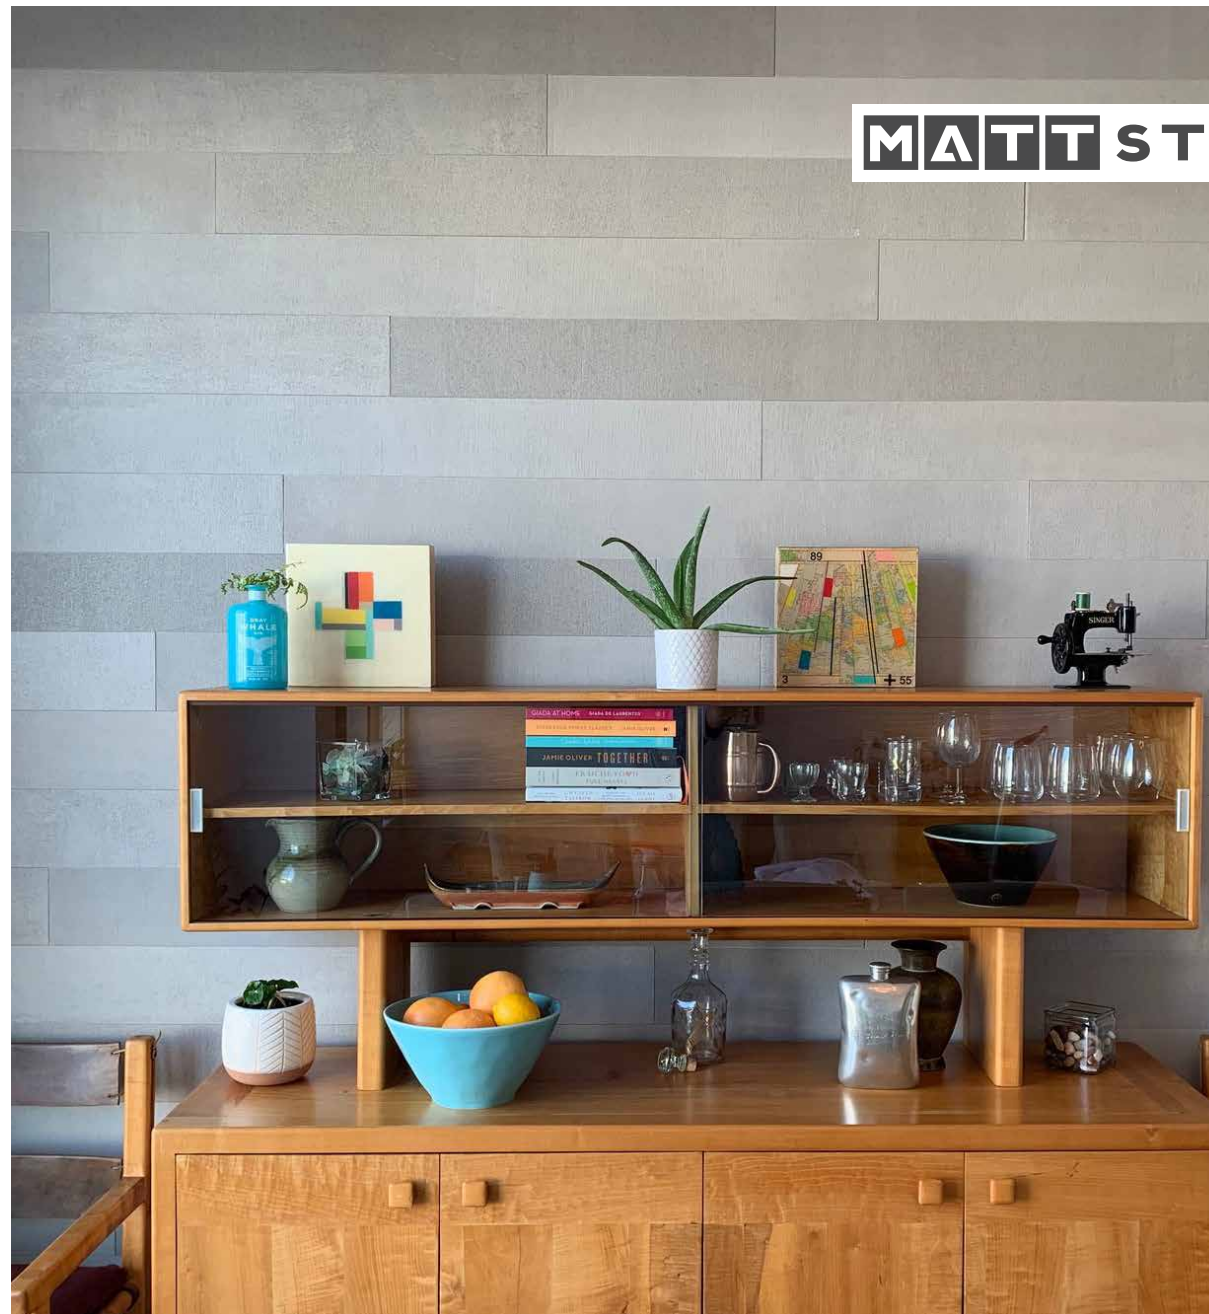

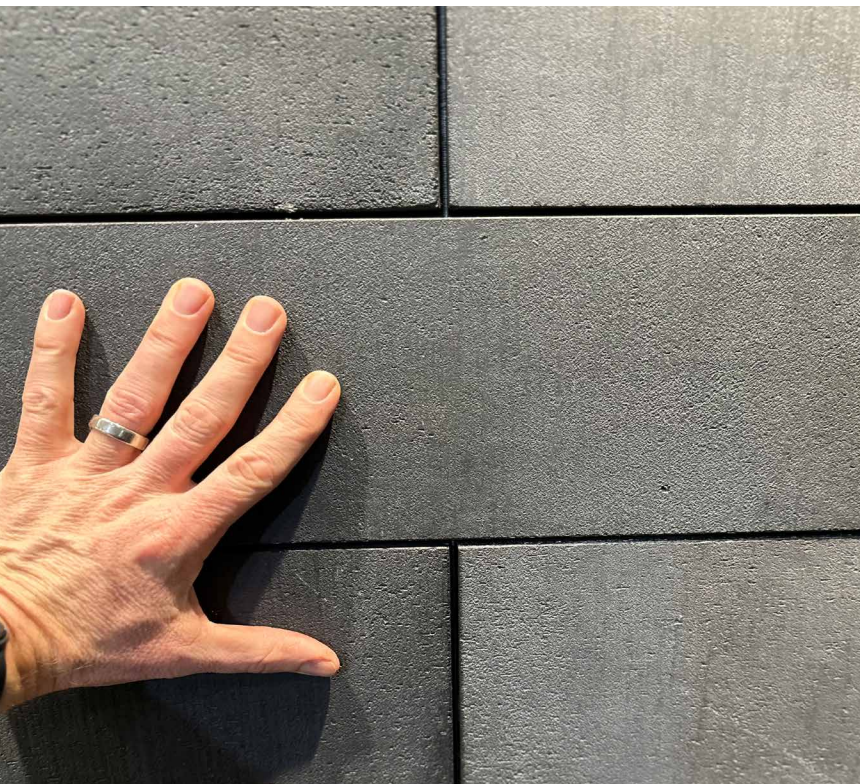

Our peel-and-stick boards are lighter and easier to handle than our panels, but are still strong and durable with a handcrafted finish that will give your project a unique, artisan look. Perfect for your home or business – you can cut and install them yourself.

Peel, stick and roll - MATT Stix go up quick and easy.

INDOORS &
OUTDOORS

LESS IS MORE

**MATT CONCRETE PANELS USE
95% LESS CONCRETE THAN A
TRADITIONAL CONCRETE PANEL.**

That allows you to do more with concrete while using less of it. Reducing the carbon footprint is just good sense and a priority in our process of creating and installing MATT Concrete Panels.

Low carbon concrete is made using supplementary cementitious materials (SCMs) that help reduce the carbon footprint of the concrete. It's also often stronger and more durable than traditional concrete. And the best part? It can even be more cost-effective.

But it doesn't stop there. MATT takes it a step further by utilizing CO₂ emissions to aid in creating a manufacturing process called 'Carbon Candy' concrete panels for a variety of finishes.

WE TAKE THE
CAPTURED
CARBON
FROM **HERE.**

AND
PUT
IT IN
HERE.

MATT TECHNICAL DETAILS

DIMENSIONS:

- Length: **5 ft or 10ft (Longboards)**
- Width: **3 ft**
- Thickness: **1/2" or 1/4"**
- Weight: **40 lbs (18kg) +/-**
or **20 lbs (10kg) +/-**

MATT Concrete Panels cut easy & laser sharp with most saws including:

- Track Saw
- Chop Saw
- Jig Saw
- Oscillating Saw

We recommend using a track and vacuum HEPA saw system such as Festool, Mikita or Dewalt for best results.

1

MATT Concrete Panels are 5' x 3' or 10' x 3' (Longboards)
...the design is up to your imagination

Fire Rating:
CAN/ULC
S102-18
ASTM E84

2

Easy to fasten with screw or nail

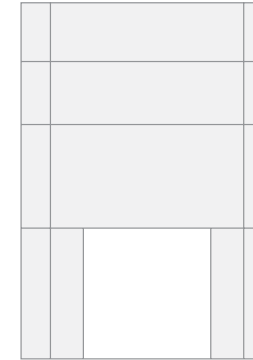

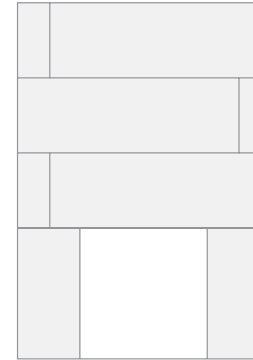

1/2" thick or 1/4"

4

MATT can be cut into strips for boardform, tiles to lay herringbone, geometrics, and much more!

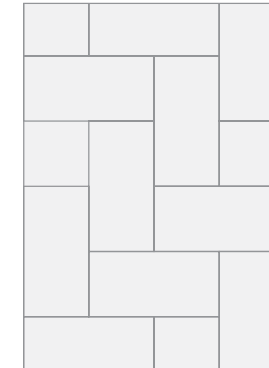

Boardform

Quads

Herringbone

- **MATT Concrete Panels can be sealed depending on the use area.**
- **To calculate the number of panels required add 15% to the total square feet for a project.**

5

Corners:

- Easily mitred corners
- Butt end

MATT
Concrete Panels are
handcrafted in Canada.

CUSTOM MADE TO ORDER.

**2 TO 5 WEEKS
FOR DELIVERY.**

**Have a unique project -
we can help!**

Please specify how you would
like to use MATT and we can
suggest the best finish for you.

HOW TO ORDER:

MATTconcrete.com

604.739.8447

info@mattconcrete.com

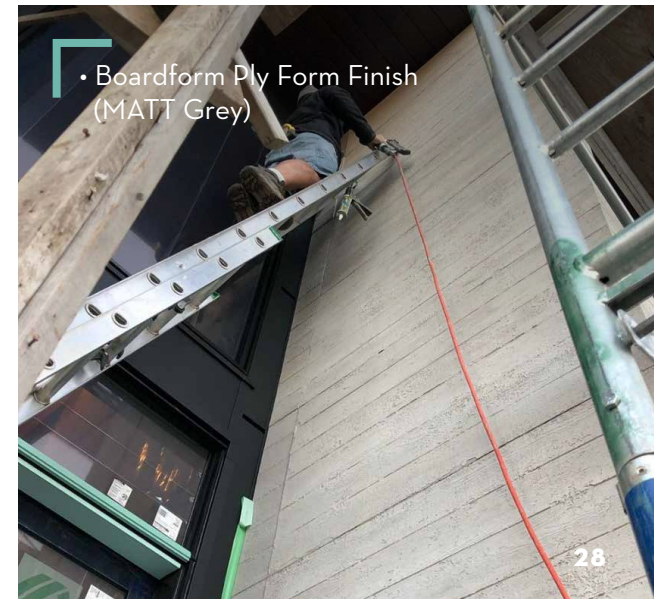

We sell direct and to
distributors near you.

You don't have to
settle for the masses.
Each panel is crafted
by hand, ready for
installation.

At only 1/4" or 1/2"
(shown) thickness, MATT
panels install in a snap.

Visit our website for complete **installation details.**
